Day 1 - Dublin, Ireland**09 May 2027, Sun | 00:00 - 21:00**

Ireland's capital Dublin has cobbled streets dating to when the Vikings established a trading port here in the 9th century. The Guinness Storehouse documents the journey of Ireland's most famous beer, while Kilmainham Gaol is where the leaders of the 1916 Easter Uprising were tried and executed. Trinity College holds the Book of Kells, a beautifully illustrated medieval bible, and St. Patrick's Cathedral dates back to 1191.

Day 2 - Belfast, United Kingdom**10 May 2027, Mon | 07:00 - 17:00**

Belfast carries its maritime heritage in the Titanic District, where the Titanic Museum brings to life the story of the ship built in the city's own shipyards, and SS Nomadic serves as a time capsule to that era. The Peace Lines, built during the Troubles, can be explored on black taxi tours explaining the history of the murals along the walls. The Cathedral Quarter's cobbled pubs and venues where music spills into the streets reveal the city's thriving creative present.

Day 3 (1) - Iona, United Kingdom**11 May 2027, Tue | 07:00 - 14:00**

Iona, just three miles long and one and a half miles wide, is home to an abbey built in 563 by Saint Columba, making the island the cradle of Christianity in Scotland. St. Martin's Cross, a 9th-century Celtic cross standing outside the abbey, is considered the finest example of a Celtic cross in the British Isles. The cemetery of Reilig Odhrain allegedly contains the remains of many Scottish kings.

Day 3 (2) - Lunga, United Kingdom**11 May 2027, Tue | 16:30 - 20:00**

Lunga is the largest island in the Treshnish archipelago off the Scottish coast, with remains of black houses from its human occupation until the 19th century. Atlantic puffins breed on the island's plateau from mid-April to early August, with abundant plant life and dramatic coastal scenery. Seals haul out on rocky shores and birds of prey are sometimes seen overhead.

Day 4 (1) - Shiant Islands, Scotland, United Kingdom**12 May 2027, Wed | 06:00 - 11:30**

The Shiant Islands, off the Outer Hebrides, are known for cliff faces of hexagonal basalt columns – volcanic intrusions exposed by millions of years of erosion, rising to 120 metres above the sea. The islands support one of Scotland's largest puffin colonies and are among the few Scottish sites where black rats – introduced by shipwreck – remain an established population.

Day 4 (2) - Loch Ewe, United Kingdom**12 May 2027, Wed | 14:30 - 20:00**

Loch Ewe is the only north-facing loch in Scotland, used during World War II as a convoy gathering point protected by anti-aircraft guns, a boom net, and a mine defence system. The loch is a natural deep-water sea loch connected to the Atlantic through a narrow mouth. Nearby Inverewe Gardens thrive on the warm currents of the North Atlantic Drift, nurturing exotic plants from many countries on a latitude north of Moscow.

Day 5 - St. Kilda, United Kingdom**13 May 2027, Thu | 06:30 - 12:30**

St Kilda, 50 miles west of the Outer Hebrides, is the UK's only dual UNESCO World Heritage Site – recognised for both its natural and cultural values. The archipelago holds the UK's largest Atlantic puffin colony and the world's largest gannet colony on the island of Boreray, while the evacuated village of Hirta preserves the last record of a community that survived on these rocks for millennia.

Day 6 - Torshavn (Faroe Islands), Faroe Islands**14 May 2027, Fri | 08:30 - 21:00**

Torshavn is one of the world's smallest capitals – a city of half-timbered houses, grass-roofed buildings, and one of the world's oldest parliaments on a peninsula overlooking the North Atlantic. The Faroe Islands' eighteen islands, shaped by volcanic basalt and Norse settlement, are among the most dramatically beautiful and least-visited landscapes in Europe.

Day 7 - Vestmanna (Faroe Islands), Faroe Islands**15 May 2027, Sat | 06:00 - 11:30**

Vestmanna, on Streymoy in the Faroe Islands, is the starting point for the famous seabird cliff boat trip. Almost 700-metre walls of basalt packed with puffins, guillemots, kittiwakes, and razorbills stretch for six kilometres along the coast. The cliffs are navigable by small boat through narrow sea caves and past waterfalls, offering one of the North Atlantic's most theatrical wildlife encounters.

Day 8 - Lerwick, Shetland Islands, Scotland, United Kingdom**16 May 2027, Sun | 08:00 - 21:00**

The Shetland Islands form the most northerly point of the British Isles, spanning 100 islands with 5,000 years of Neolithic heritage and some of the most dramatic coastal scenery in Scotland. The Broch of Mousa is considered Europe's best-preserved Iron Age building, believed to have been constructed around 100 BC. Shetland Ponies, a crossbreed with Norse origins, roam the hills and have become an icon of the islands.

Day 9 - Fair Isle, Scotland, United Kingdom**17 May 2027, Mon | 06:30 - 13:00**

Fair Isle lies mid-way between Shetland and the Orkney Islands, with a population of around 70 people and a warm welcome for visitors. The island is famous for birds, knitwear, and historic shipwrecks, including the Spanish Armada flagship El Gran Grifon. Sheep Rock, rising over 100 metres, towers above the island's cloudy turquoise waters.

Day 10 (1) - Lindisfarne Island, United Kingdom**18 May 2027, Tue | 07:00 - 12:30**

Lindisfarne, or Holy Island, off the Northumberland coast was perhaps the holiest site in Anglo-Saxon England, with a priory established in 635 CE by the Irish monk Aidan and later made famous by Saint Cuthbert. The Lindisfarne monastery was the target of the Vikings' first major attack on Western Europe in 793 CE. Lindisfarne Castle, built in 1550 using stones from the priory, is now cared for by the National Trust.

Day 10 (2) - Farne Islands, United Kingdom**18 May 2027, Tue | 14:30 - 21:00**

The Farne Islands begin 2.4 kilometres off the Northumberland coast, managed by the National Trust and home to 100,000 breeding seabirds and thousands of seals. Saint Cuthbert introduced bird protection laws here in 676 CE, among the earliest written in the world. Atlantic Puffins, called Tommy Noddies in Northumberland, breed on the islands from April to July alongside Common Guillemots and Arctic Terns.

Day 11 - Isle of May, United Kingdom**19 May 2027, Wed | 06:00 - 14:00**

The Isle of May is a National Nature Reserve off mainland Scotland, managed by Scottish Natural Heritage as a breeding ground for approximately 250,000 seabirds. Over 40,000 puffin burrows have been counted as occupied, alongside kittiwakes, shags, eiders, guillemots, razorbills, Arctic Terns, and Great Black-backed Gulls. The island is also used by biologists for ringing breeding seabirds and surveying migrating passerines.

Day 12 - Edinburgh (Leith), United Kingdom**20 May 2027, Thu | 03:00 - 00:00**

Edinburgh Castle watches over the capital from a skyline of sheer drama, while the modern Scottish Parliament and August festivals confirm the city's place in the 21st century. Nearly everywhere in Edinburgh stand spectacular neoclassical buildings, with Doric, Ionic, and Corinthian pillars against a largely Presbyterian backdrop. Arthur's Seat, a mountain jutting 822 feet above its surroundings, rears up behind the spires of the Old Town.
